

Year 9 Reports 2021/22

To support your child in achieving in year 9, there will be three reports issued:

- *November 2021*
- *March 2022*
- *July 2022*

Grades

For each subject, the report will contain a working at grade, flight path target grade and a GCSE target grade. These grades are reported as 1 to 9 grades, with sub levels (+ and -) also available. The only exception to this is in PE where there is a 6 point scale which reflects skills and abilities within this subject.

The flight path for year 9 is included below. To judge the progress of your child, compare the current working at grade to the relevant flight path target.

The GCSE target grades are set using nationally analysed performance data. These work alongside the flight path targets and reflect a minimum that your child should be working towards achieving. The targets are partly based on prior attainment and do not reflect a limit on the grade they can achieve. The targets are also designed that a + grade GCSE target (for example 5+) has a flight path target of a grade 6 by the end of the course.

Despite the school closures during the last two years, we have not lowered our aspirations for your child, so their targets have not changed.

Attitude to Learning (ATL)

The attitude to learning (ATL) grades are graded between 4 and 1 using the following criteria:

4 - Outstanding

Homework is always completed with extra learning and attention.

2 – Requires Improvement

Homework is usually completed but not to the highest standards achievable.

1 - Unacceptable

Homework is regularly incomplete.

An average of the ATL is calculated and students are put into the following colour groups:

Green	3 - 3.49
Yellow	2.5 – 2.99
Red	Less than 2.5
